Docket No. E-00000C-11-0328 Smart Meters

Dear Commissioners:

Thank you for your past attention to our statements of concern regarding health issues arising from Smart Meters.

It is important that an opt-out must include all Arizona utility customers, regardless of the metering technology. PLC systems transmit over power lines and there are serious health concerns with these systems. Digital meter are also potentially injurious to health.

Analog meters are necessary to protect ones health from harmful effects. All opt-out participants must be offered a non-communicating electromechanical meter.

Additionally, the FCC guidelines for radio frequency exposure limits are outdated and will not protect consumers from potentially harmful level of RF exposure.

Thank you again for your attention to these grave concerns. I am chemically sensitive as well as hyper electrically sensitive. All aspects of my life have been drastically altered due to this fact. I am greatly concerned by the numerous reports of healthy individuals that are experiencing serious symptoms after the instillation of the newer technology.

Sincerely,

Claudette Cimale

Arizona Corporation Commission
